

Addendum 1
To RFP 26-1066 for Waste Removal, Recycling, and Disposal Services
Questions and Answers

Issued on October 17, 2025

RFI #	Question/RFI	Answer/Clarification
1.	Does the Corporation utilize a city approved food waste facility or can Contractor use any food waste facility?	Corporation does not have a preference as long as the waste facility composts and provides weights.
2.	Will Corporation host an official job walk? Can bidders schedule a job walk and with who?	No site walks are available for this RFP.
3.	Can bidders get a copy of expiring price sheet or expiring contract?	For copies of the current contract and price sheet, please submit a Public Records Act ("PRA") request to Pat.Evans@visitsandiego.com .
4.	In regard to recycling, does it matter where Contractor disposes, or does Contractor dispose at a designated location?	Corporation does not have a preference if the waste facility composts and provides weights.
5.	Page 4 of 12 on the RFP, Section 1 – Instructions & General Conditions, Subsection 22 mentions living wage requirements and no mention of prevailing wages. The sample contract on page 7 of 11 section 4.10 reads "the contractor shall comply with California prevailing wage law and requirements". What are the Corporation's requirements?	Contractor acknowledges, as applicable, it is familiar with and shall comply with and shall require all of its subcontractors to comply with current State of California Prevailing Wage law and requirements.
6.	What is the current pricing structure for all disposal recycling and organic services at the San Diego Convention Center?	Current pricing structure is comparable to the structure outlined in Exhibit B – Bid Form (Line Items).
7.	What is the current diversion rate for the Corporation?	Corporation's current diversion rate is approximately 60%.
8.	Who is the current hauler, and have there been any service issues? If so, what have they been?	Republic Services.
9.	Please clarify what specific information or components are required in the waste audit report (e.g., data, analysis, format).	The waste audit report shall contain the weight, contamination %, and material type.
10.	Should the cost of performing the waste audit be built into the overall service rates or listed as a separate line item in the bid pricing?	Built into the overall service rates.
